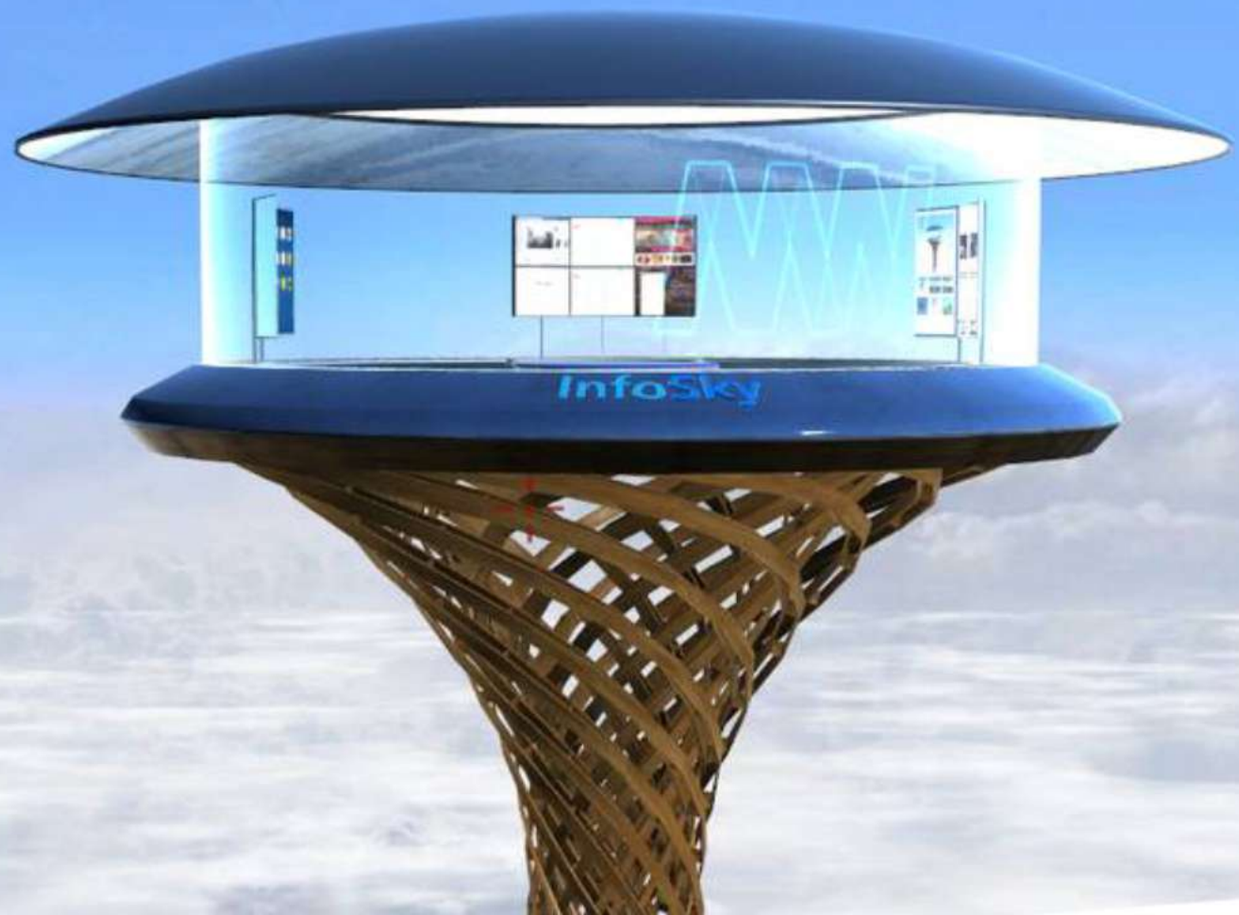
maxwhere.com



MaxWhere EDU – 3D platform

was invented by scientists and university professors
determined to find a more effective way
to teach & learn

It is a cutting edge technology to

- gear up students' brain
- give breakthrough tools for educators
- improve project based teaching

MaxWhere EDU

50% **more effective**
memory recall

30% **faster**
students' activity and team work

50% **better**
comprehension

50% **more complex**
sharing

One-click **switching**
between
classrooms / subjects

One-click
integration
of any online edu-tool

Mouse only

Easy to use

NOT Required

3D headset & Complicated VR devices

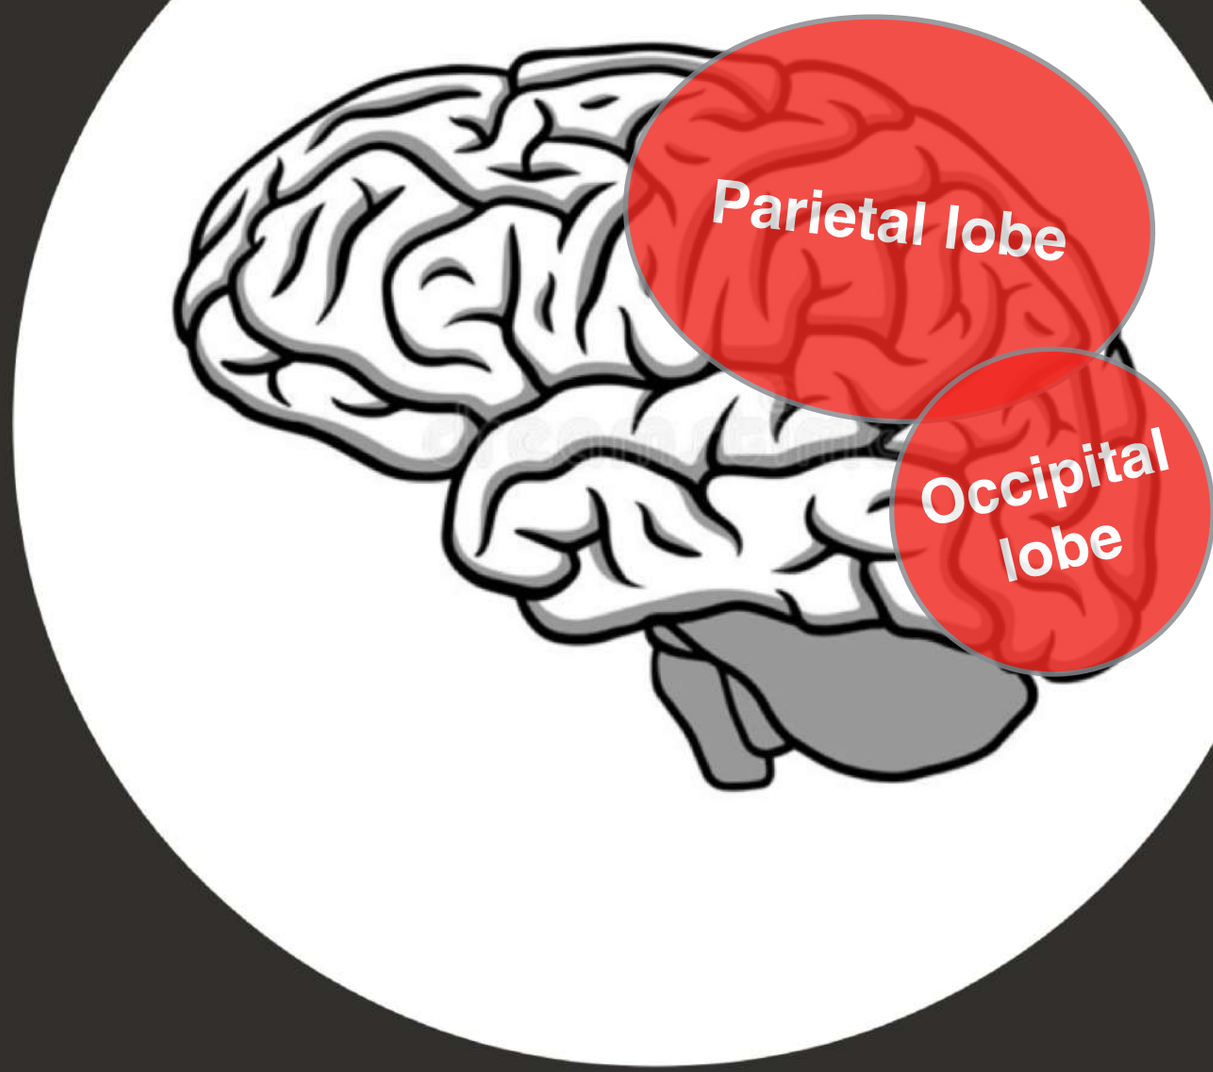
Based on the work of the VR Learning Research Lab
at Szechenyi Istvan University. Test group includes 400 users.

Gear up students' brain

MaxWhere

turns on

Visual information - windows



Spatial awareness and activity

Spaces & Objects

Classrooms for teamwork, projects and lectures

Students can customize their working experience

Students can enter anytime and collaborate

Real-time networked meetings and consultations

Study rooms to learn and do homeworks

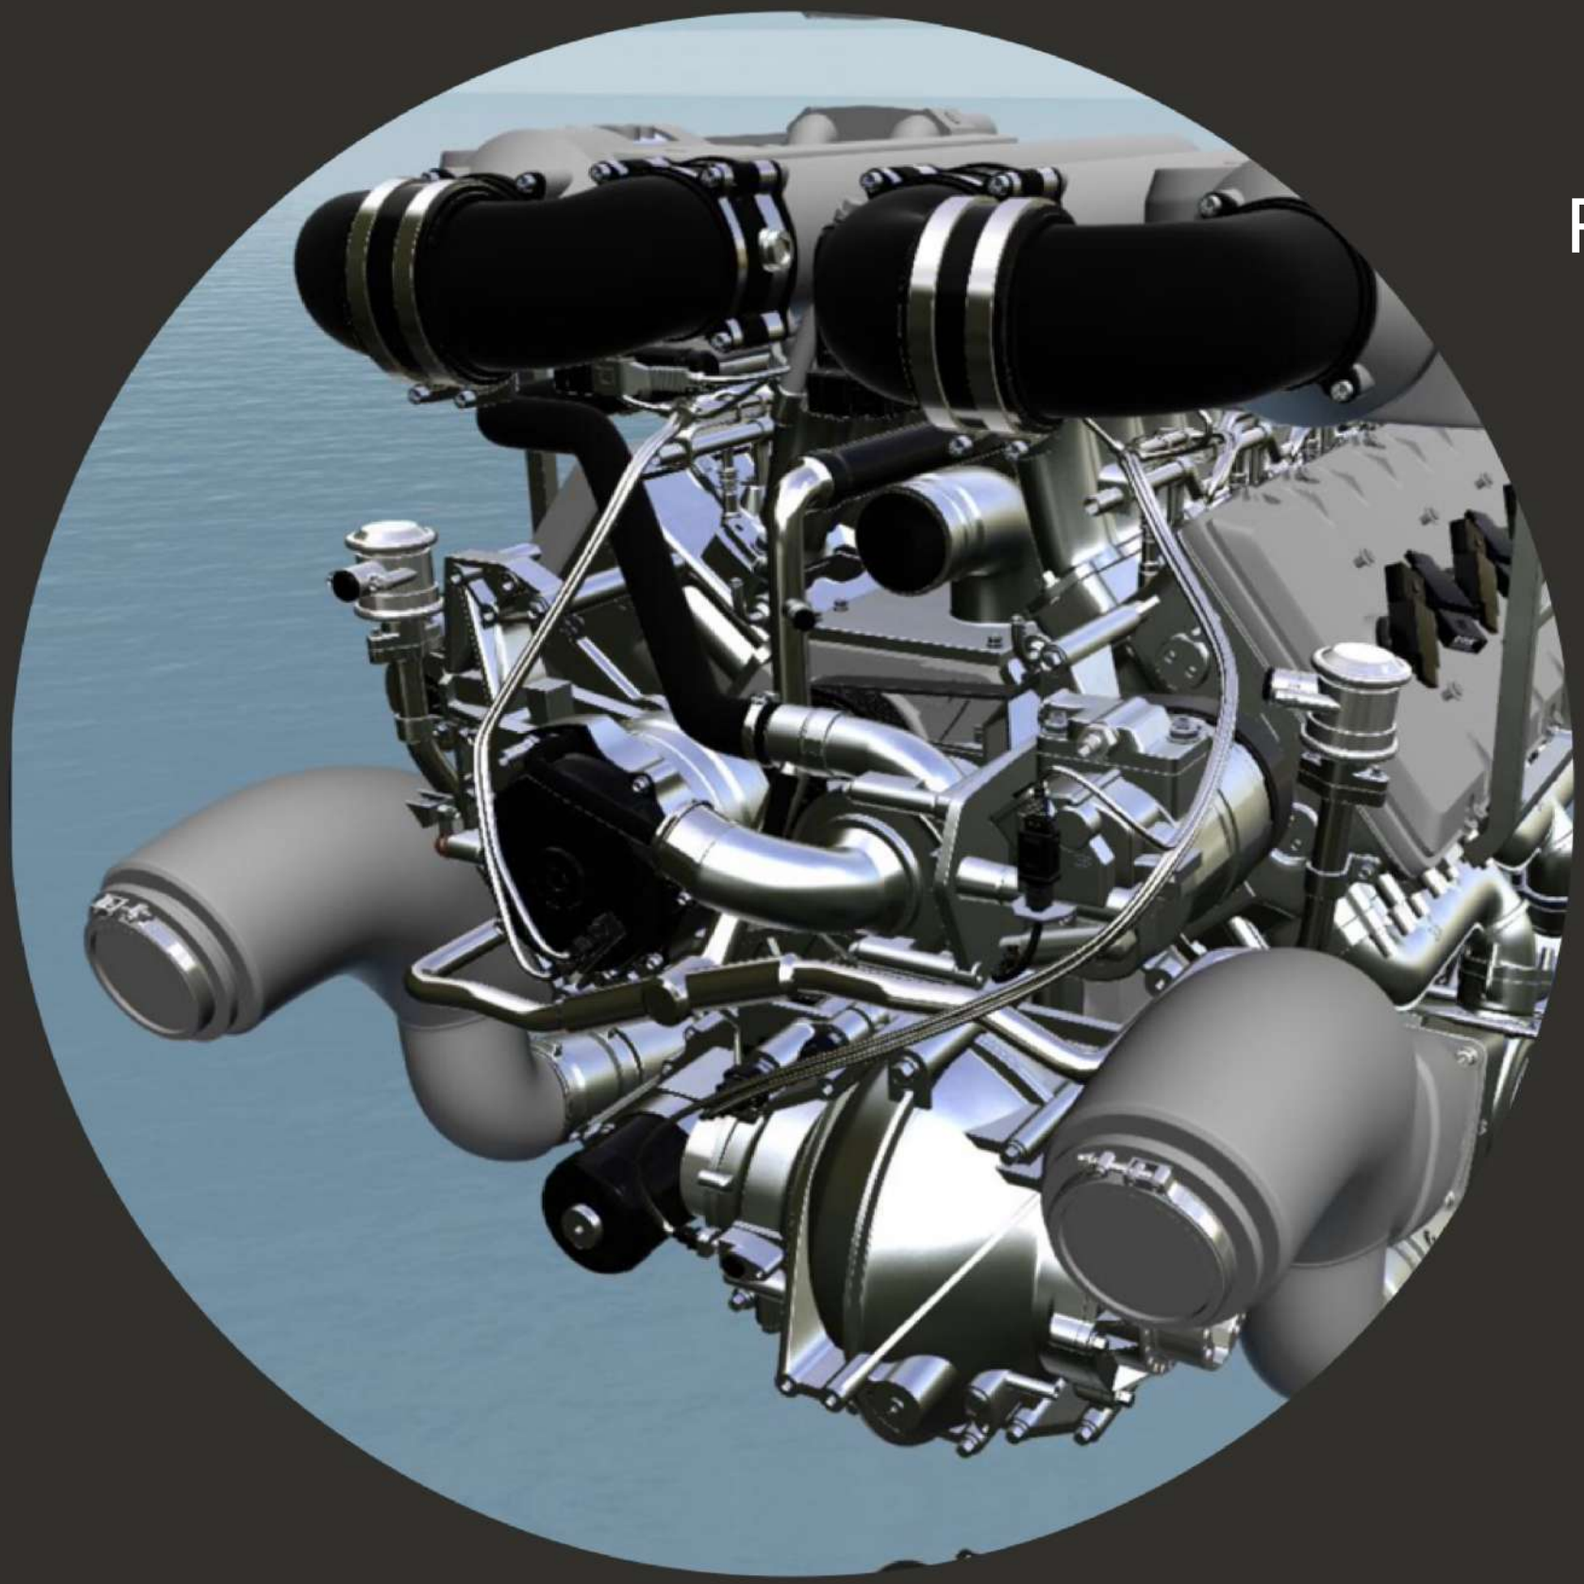
Each student has
a private room to study

Specially designed
rooms are available
for different subjects

Unlimited chat and
video calls

One-click to import
e-learning materials

Interactive 3D simulations for the best comprehension

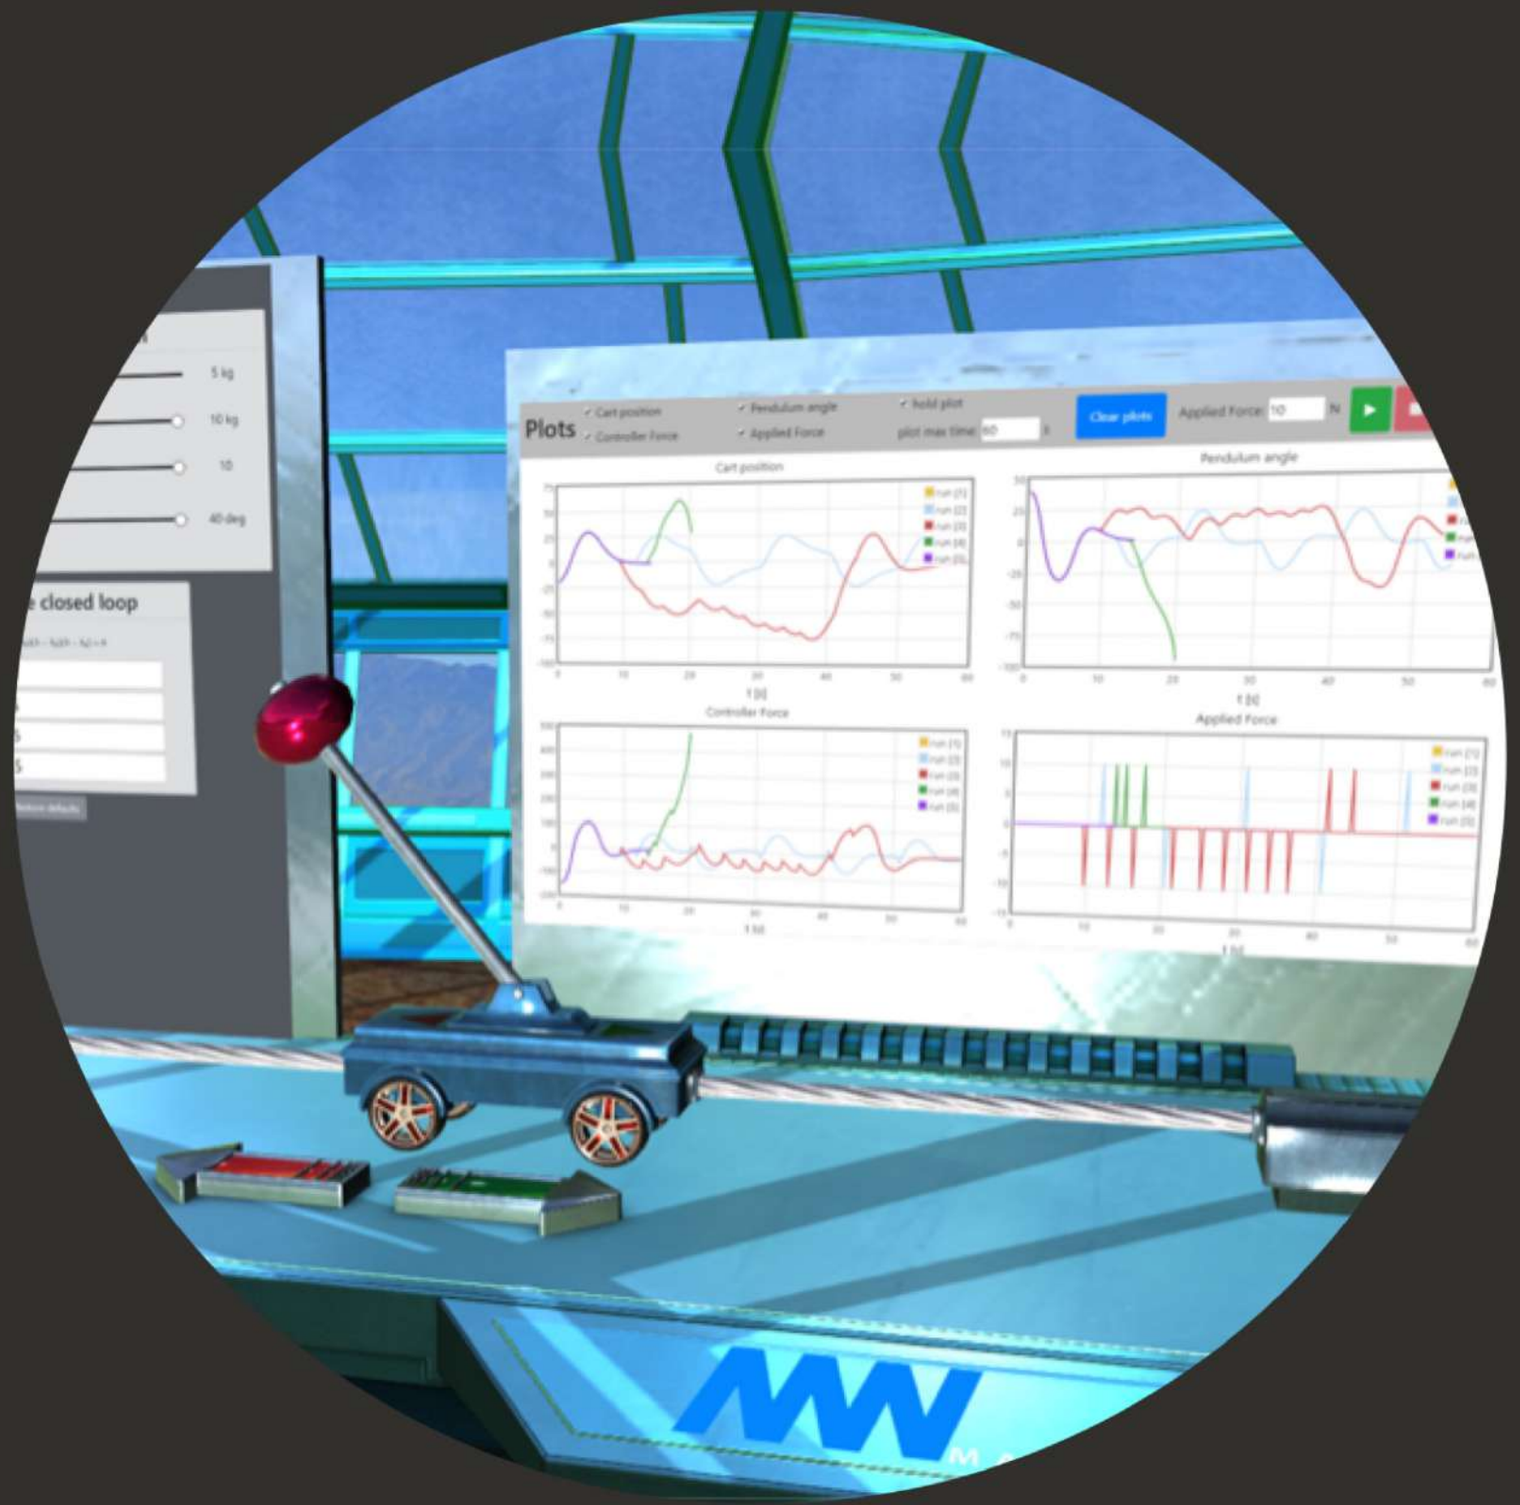


Powerful way to visualize and explain

Digital twins for Industy 4.0

Free interaction with objects

Training in high fidelity virtual environments



Interactive 3D laboratories
+ simulations

Prepare & complete
laboratory work anytime
from anywhere

Decrease the cost of
expensive laboratories

Be prepared for life-threatening situations

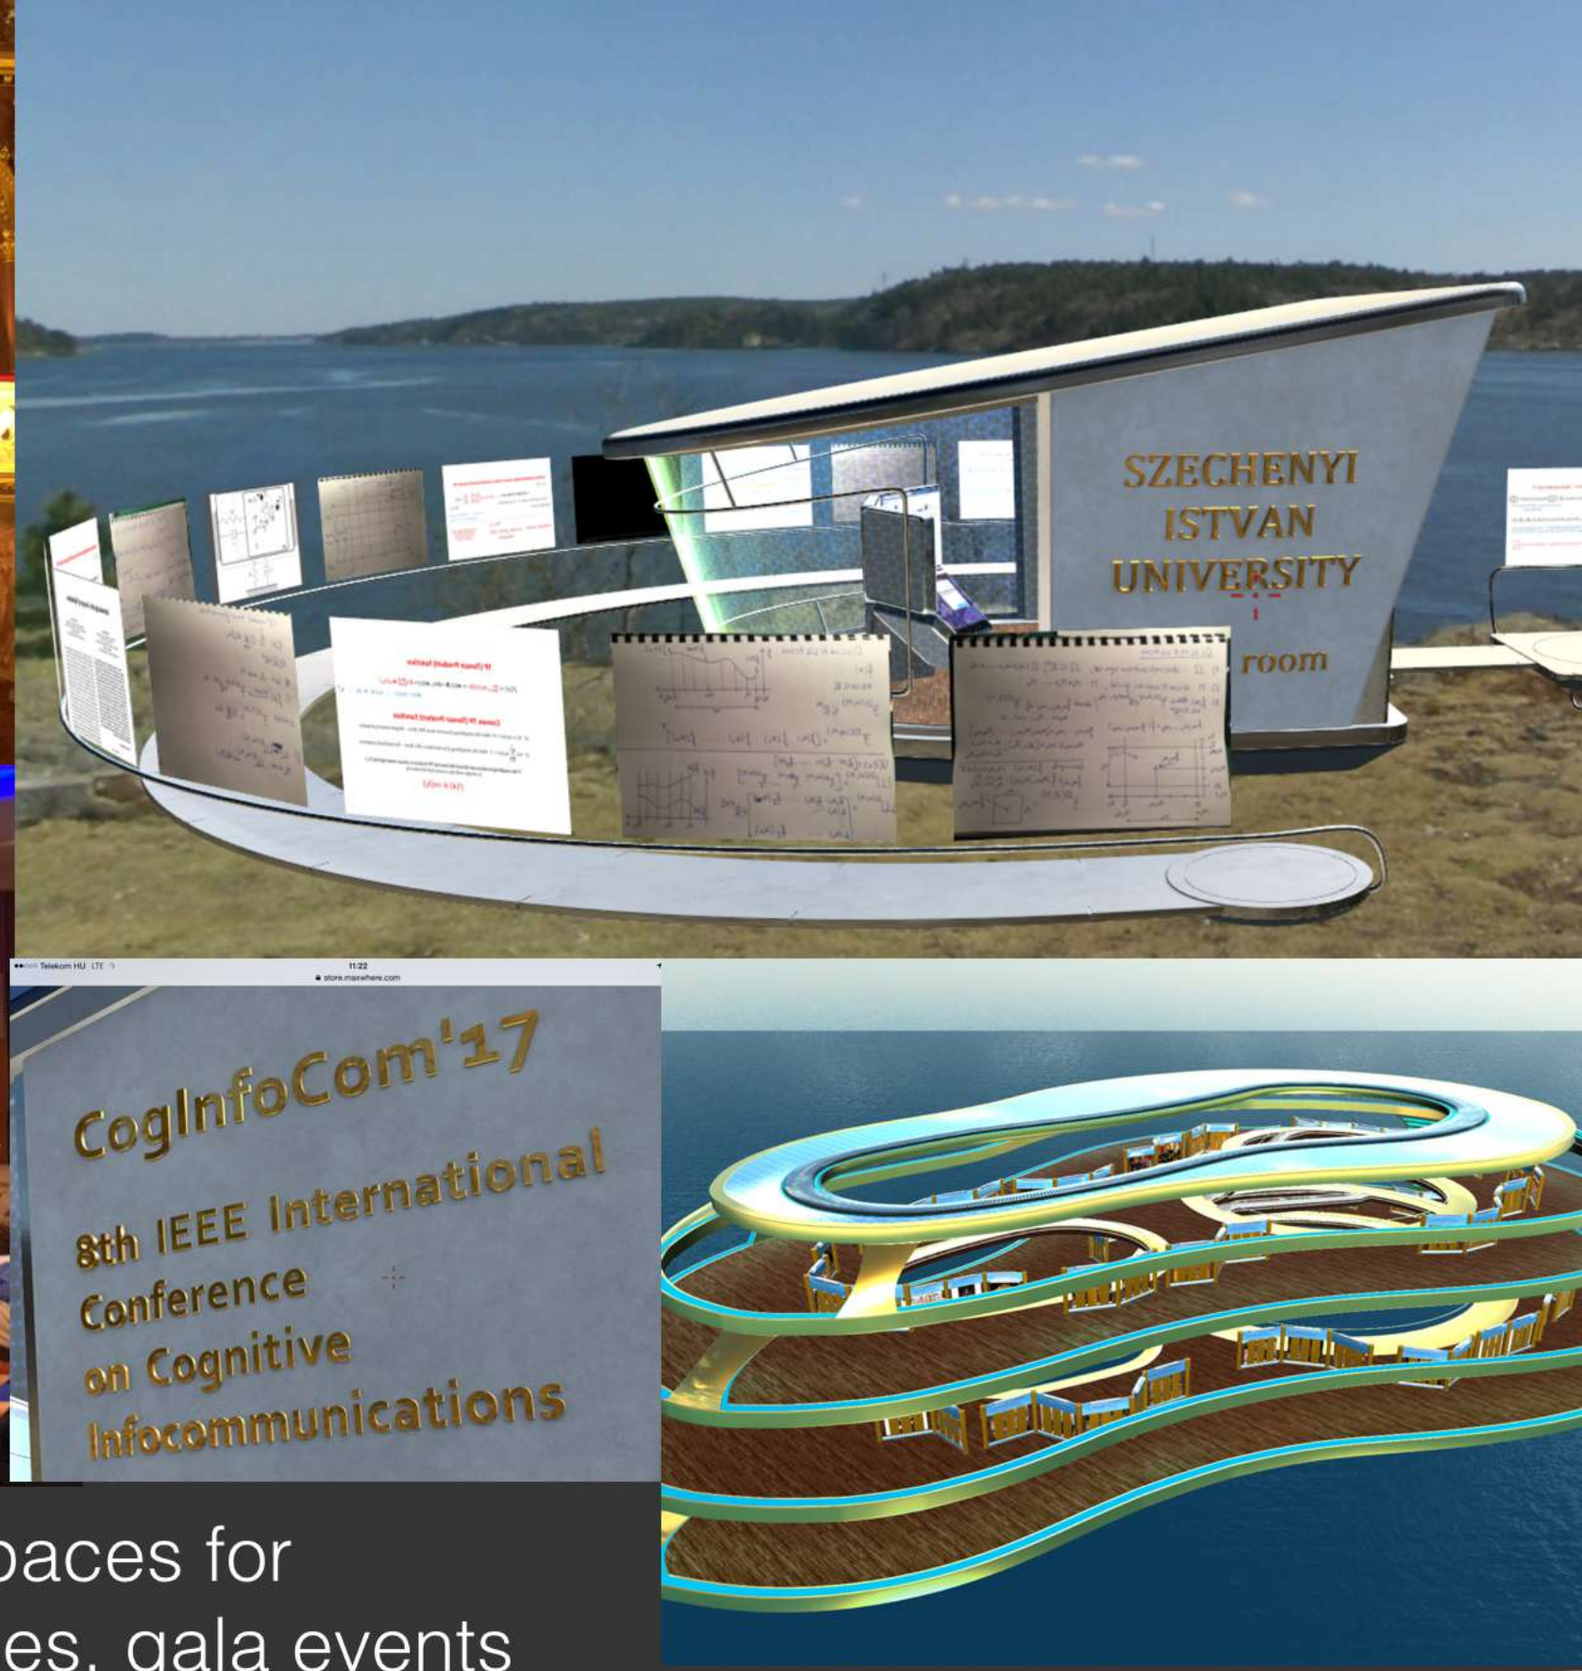
Try dangerous actions
in virtual spaces

Experience-based
knowledge acqusition

Be trained in disastrous
situations

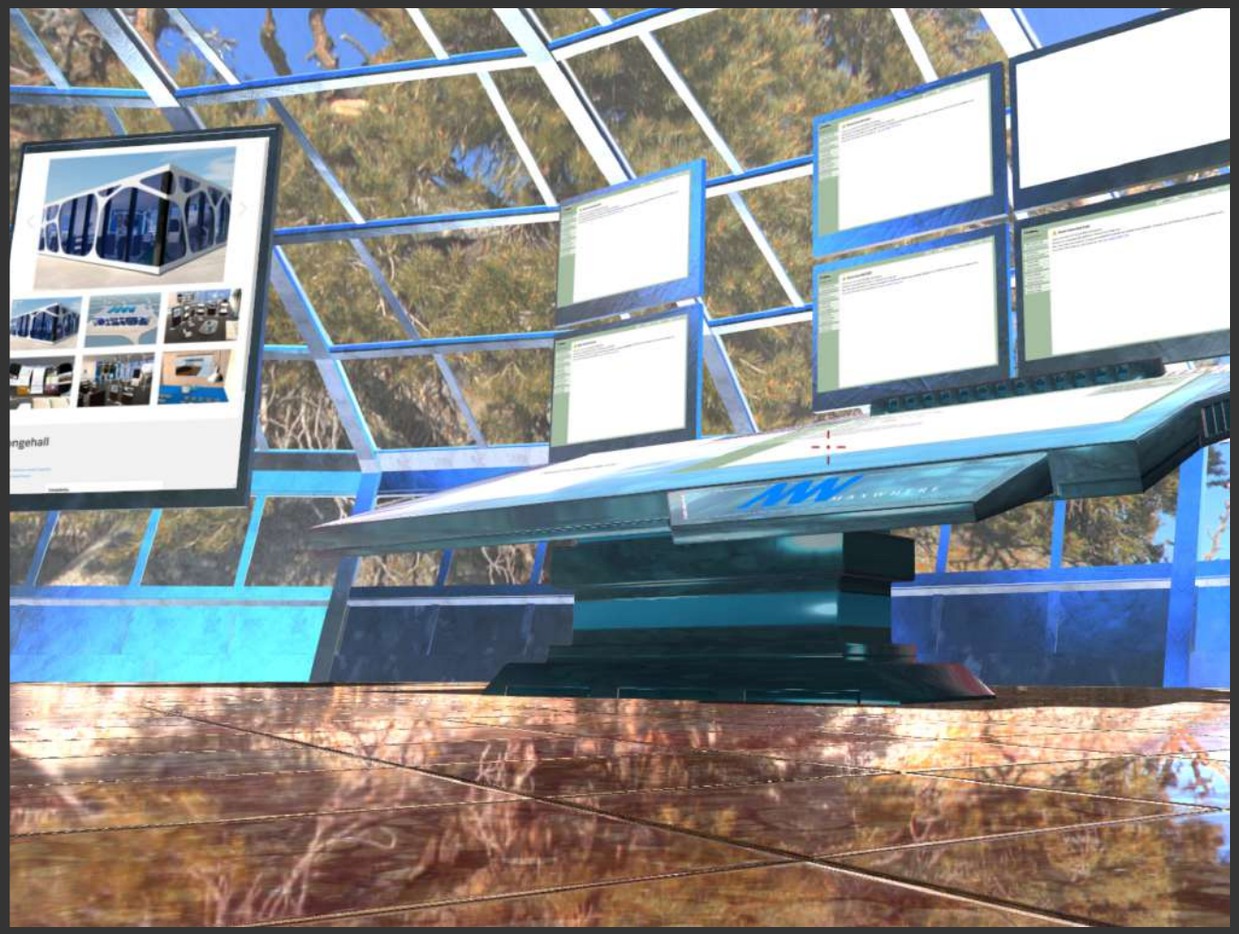
Ceremony at the Hungarian Parlament 2016

Opening Session at conference with over 1,000 presentations, IEEE SMC 2017



Custom-designed spaces for
board meetings, conferences, gala events
and online exhibits

maxwhere.com



One-click switching between teams & project spaces including all documents

Easy & Clickless navigation

Unlimited space and Smartboards

Ultimate classrooms
