MaxWhere EDU – 3D platform

was invented by scientists and university professors determined to find a more effective way to teach & learn

It is a cutting edge technology to

- gear up students’ brain
- give breakthrough tools for educators
- improve project based teaching
MaxWhere EDU

50% more effective memory recall

30% faster students’ activity and team work

50% better comprehension

50% more complex sharing

One-click integration of any online edu-tool

One-click switching between classrooms / subjects

Easy to use

Mouse only

3D headset & Complicated VR devices NOT Required

Based on the work of the VR Learning Research Lab at Szechenyi Istvan University. Test group includes 400 users.
Gear up students’ brain

MaxWhere turns on

Spatial awareness and activity
Spaces & Objects

Visual information - windows
Classrooms for teamwork, projects and lectures

Students can customize their working experience

Students can enter anytime and collaborate

Real-time networked meetings and consultations
Study rooms to learn and do homeworks

Each student has a private room to study

Specially designed rooms are available for different subjects

Unlimited chat and video calls

One-click to import e-learning materials
Interactive 3D simulations for the best comprehension

Powerful way to visualize and explain

Digital twins for Industry 4.0

Free interaction with objects
Training in high fidelity virtual environments

Interactive 3D laboratories + simulations

Prepare & complete laboratory work anytime from anywhere

Decrease the cost of expensive laboratories
Be prepared for life-threatening situations

Try dangerous actions in virtual spaces

Experience-based knowledge acquisition

Be trained in disastrous situations
Custom-designed spaces for board meetings, conferences, gala events and online exhibits
One-click switching between teams & project spaces including all documents

Easy & Clickless navigation

Unlimited space and Smartboards

Ultimate classrooms
It's fun, too!
Have a break and take a rest together
3D generation of computers
